

PETER BARTSCH

(847) 636-2708 | peter@peterbartsch.com | portfolio: peterbartsch.com | <http://linkedin.com/in/peterbartsch>

Product designer specializing in enterprise design systems and complex data products. 15 years hands-on work—from solo IC at \$3M startup to senior designer at \$38B enterprise. Research, prototyping, systematic design, and occasional team building along the way.

PROFESSIONAL EXPERIENCE

THIOS | Founder & Lead Designer | Aug 2024 - Present

Open-source modular shelter system that transforms parking spaces into productive environments—from saunas to urban farms.

- **Designed and built complete product ecosystem from 0→1:** 5 modular shelter variants with full CAD/3D models (OnShape), physical working prototype, web platform, and multi-tier business model—leveraging AI tools (Claude, Cursor) as technical co-founder to accelerate development across design, engineering, and strategy
- **Launched first revenue-generating product:** Whole Thiosphere Handbook—200+ page build guide with architectural drawings, cut lists, and assembly instructions, targeting 2,000 early customers with lifetime updates
- **Applied AI-augmented workflows** across entire development cycle—concept validation, CAD modeling, web development, technical documentation—demonstrating practical AI integration as force multiplier for product development

JOHN DEERE | Senior Lead UX; Digital Customer Experience | Aug 2020 - Jul 2024

Led UX modernization across enterprise digital products serving agricultural, construction, and forestry markets globally. Embedded with product teams to establish design standards and drive subscription revenue growth.

- **Redesigned 20-year-old license management system** serving 500K+ users across 12 languages, increasing authenticated engagement 34% and reducing support tickets 16%—enabling \$3.8B in subscription revenue from Automation and AI services
- **Created unified account and navigation framework** deployed across all digital touchpoints (web, mobile, embedded) for 8 product lines—consolidated fragmented experiences into single customer view with equipment data, improving dealer support efficiency 28%
- **Established enterprise design system** in Figma spanning 6 brands and 40+ product teams globally, reducing design-to-development handoff time 45% through standardized components and documentation

FOURKITES | Lead UX / Manager | Jan 2017 - Jan 2020

Employee #28 at supply chain visibility startup during hypergrowth (\$3M to \$100M ARR). Built and led design function from founding designer to 10-person global team.

- **Designed real-time supply chain control tower** processing 10M+ daily tracking events for 30+ Fortune 2000 companies (Anheuser-Busch, Georgia-Pacific, Tyson Foods)—became company's flagship product driving 3x customer expansion
- **Led predictive analytics dashboard** that identified shipment delays 6-12 hours earlier than competitors, increasing customer retention 41% and expanding average contract value \$120K annually

PETER BARTSCH

(847) 636-2708 | peter@peterbartsch.com | portfolio: peterbartsch.com | <http://linkedin.com/in/peterbartsch>

- **Scaled design team from 1 to 10** across Chicago and Chennai offices while establishing hiring framework, design operations, and component library that reduced design inconsistencies 65%

MAVENWAVE PARTNERS | Senior UX + Agile Lead (Consultant) | Jan 2014 - Jan 2017

Led UX and Agile transformation for Fortune 500 digital products across healthcare and pharmaceutical sectors.

- **Designed 6 internal portals for AbbVie** supporting 200K+ users across clinical trials and patient support programs—improved medication adherence tracking and reduced hospital readmissions 12% through simplified workflows
- **Rebuilt OptumRx pharmacy formulary platform** processing 1.4B prescriptions annually—created company's first patient-facing product, reducing fulfillment errors 15% through improved drug interaction warnings and onboarding
- **Established Lean UX and Agile practices** across client engagements while mentoring junior designers and leading cross-functional design sprints

EARLIER EXPERIENCE | 2001 - 2014

- **Nokia HERE Maps** | Product Marketing Manager (2012-2014) - Led UX integration of acquired Trapster app, improving onboarding completion 33%
- **Gogo Inflight WiFi** | Product Manager (2008-2012) - Launched connectivity services across 6 major airlines; developed sponsored flight tracker generating recurring revenue streams
- **Cognistar** | Co-Founder (2001-2008) - Built digital production and UX for legal education startup; raised \$3M, achieved \$2M+ annual revenue before acquisition

SKILLS

Design Leadership: Enterprise Design Systems • Cross-functional Team Building • Design Operations • Information Architecture • Data Visualization • Accessibility (WCAG 2.1)

Research & Strategy: User Research • Usability Testing • Journey Mapping • Design Sprints • Lean UX • Agile/Scrum

Tools: Figma • Adobe Creative Suite • CAD/3D (OnShape) • HTML/CSS • AI Tools (Claude, Cursor) • Prototyping • AI-Augmented Workflows • AI-Integrated Design

EDUCATION

Arizona State University | Bachelor of Arts, Humanities and Architectural Theory

COMMUNITY

Board Director | How Weird Street Faire 501(c)(3) SF street fair with successful 20+ year run (2004 - 2024)
