

Howdy. I'm Pete. I create, develop and manage new digital products and experiences, and the teams that make it all happen. From scrappy startups to Fortune 500s, I've brought strategic vision and hands-on leadership to projects and groups in rapid transformation. I am passionate about automation and AI as a design tool, and love complex challenges.

PROFESSIONAL EXPERIENCE

THIOSPHERE.ORG / THIOS + COMPANY

Inventor/Founder | July 2024 - Present

- Invented modular shelter system for diverse applications, designed to be built with simple tools and common materials
- Mastered Blender 3D, OnShape CAD, 3D printing and carpentry skills while prototyping the concept to market readiness
- Iterated designs to production-ready specifications, including comprehensive bill of materials and fabrication cost analysis
- Leveraged Cursor AI + Claude Code to build online marketing sites and business tools, integrating multiple AI services
- Open-sourced design files to focus on key use case: building zero-mile farming communities with Agrospheres

JOHN DEERE AND COMPANY

Senior Lead User Experience, Digital Customer Experience | August 2020 - July 2024

- Led User Experience for Digital Customer Experience, creating seamless self-service experiences across the enterprise
- Unified global customer authentication and account management, establishing consistent experiences across all markets
- Guided enterprise-wide transition to Figma from Sketch while creating comprehensive global design systems
- Designed license management system deployed across all product lines worldwide, significantly increasing recurring revenue

FOURKITES.COM

Head of User Experience | January 2017 - January 2020

- Grew design organization from sole practitioner to team of 10, launching 6 major products that secured key enterprise clients
- Built design practice from ground up as early employee (#28), establishing processes that scaled with rapid company growth
- Created user research protocols that supported 300% year-over-year revenue growth, reaching \$100MM annually
- Led customer workshops at annual conference, growing attendance from 15 to 500+ participants over three years

MAVENWAVE CONSULTING

Senior Management Consultant / Agile + UX | January 2014 - January 2017

- Transformed digital product development for Fortune 500 clients including Abbott, Nike, and OptumRx
- Built and mentored cross-functional design teams that consistently delivered ahead of schedule using Agile methodologies
- Led "Understanding Agile" to a wide range of enterprise stakeholders, teaching fundamentals and fostering engagement

NOKIA / HERE MAPS

Product Marketing Manager, HERE Traffic | August 2012 - January 2014

- Managed product marketing strategy for real-time traffic platform serving millions of users globally through in-dash GPS
- Created revenue-generating inflight products including flight tracker that functioned even during connection outages
- Joined acquired Trapster app to lead app onboarding experience and integration into the HERE Traffic platform

GOGO INFLIGHT INTERNET

Product Manager, Signature Services | April 2008 - August 2012

- Joined pre-launch product team that brought inflight connectivity and related airborne/terrestrial web services to 6 airlines
- Created revenue-generating inflight products including sponsored flight tracker that worked even when the connection didn't
- On team for first Agile integration with an FAA proctored manufacturing process

ADDITIONALLY

- Built and managed digital video production teams for online education startup cognistar.com as 1 of 6 co-founders
- Led Quality Assurance on four Super Nintendo games for Life Fitness' exercise equipment platform "Exertainment"
- Original crew member and board director for the 501(c)(3) supporting the How Weird Street Faire (howweird.org)
- Snowboard instructor for disadvantaged inner city teens (chill.org @ Wachusett Mountain, MA) for 3 seasons
- Started skateboard shop at 16 - helped pay for college
